1 (1) Any of the following projects:

2 (A) Projects at new energy generating facilities that employ the  
3 use of clean coal technology and that are fueled primarily by  
4 coal or gases, derived from coal from the geological formation  
5 known as the Illinois Basin.

6 (B) Projects to provide advanced technologies that reduce  
7 regulated air emissions from existing energy generating plants  
8 that are fueled primarily by coal or gases from coal from the  
9 geologic formation known as the Illinois Basin, such as flue  
10 gas desulfurization and selective catalytic reduction equipment.

11 (C) Projects to provide electric transmission facilities to serve  
12 a new energy generating facility.

13 (2) Projects to develop alternative energy sources, including  
14 renewable energy projects.

15 (3) The purchase of fuels produced by a coal gasification facility.

16 **(4) Projects described in subdivisions (1) through (3) that use**
